

What is PR-WIN

Paso Robles Water Integrity Network (PR-WIN) is a grassroots Political Action Committee (a 527 PAC) created to mount an opposition to the proposed AB 2453 Paso Robles Basin Water District. The district is being forced on us by a small, well organized and well financed special interest group that is seeking total control of the water in our basin. The proposed district would strip away our constitutional right to the reasonable use of the water under the property we own.

The proponents of the water district are using *lies and scare tactics* to frighten people into supporting their water district. PR-WIN intends to address the misinformation that is being fed to the public such as:

	True	False
They say: <i>"The state will take over if this district isn't formed quickly."</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
They say: <i>"The state can come on your property and put a meter on your well."</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
They say: <i>"Adjudication isn't a basin management tool."</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
They say: <i>"There are only three options available for controlling the basin, the Flood Control District, the AB2453 district or a state take over."</i>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

The list of lies and threats floating around is endless and must be publicly addressed to insure the voters have a clear view of the issues at stake before making a decision about the district formation. We've chosen a lifestyle and want to protect our precious resource, our right to conserve it, and our right to use it for reasonable purposes.

Please join us in our goal to protect this water basin and help to maintain our property rights by completing the contribution form on the other side of this page.

Thank you very much for your generous support!
